Your Biggest Accident Could Be Your Choice of Attorney

Corradino & Papa, LLC Celebrates Sheriff Berdnik at Caribbean Night. An event that happens every year.

DANGER CUTS BOTH WAYS

Each year, hundreds of road construction workers across the country are killed in work zones due to traffic incidents. One of the top causes is drivers who pass on the outside of the construction zone and collide with workers, equipment, or other vehicles. Drivers passing through work zones need to pay attention, follow instructions, and observe the speed limits.

However, construction zones can be dangerous for passersby as well. According to a study conducted by the Federal Highway Administration in 2010, construction zones were the sites of

roughly 87,000 vehicular accidents per year, nationally, leading to over 37,000 injuries, not to mention damage to property.

Work zones containing incorrect, improper, or confusing signage; insufficient warnings on lane closures, merges, or shifts; sudden speed changes; missing cones or barrels at key points; dangerously uneven pavement or unblocked, unmarked holes in the road; poor lighting; and construction vehicles entering and exiting the roadway in a reckless manner are a few of the hazards that may lead to accidents.

Road repair/construction is an inevitability. Roadways in a state of disrepair will be a source of danger to motorists and need to be fixed. But it needs to be done with the highest standards of safety and care in mind. All of the situations mentioned previously are completely avoidable.

If you are the victim of negligence at a road construction zone, you may file a claim against a worker, the construction company, the city, or other entity involved in the situation. Contact Corradino & Papa, LLC to safeguard your rights.

LEGAL TERMS OF THE MONTH ...

deposition and pro se

A **deposition** is the oral testimony of a party or witness in a civil or criminal proceeding that is taken before trial and it takes place most often at an attorney's office. An attorney asks the questions and the deponent, the person being asked questions, responds to those questions. These questions and answers are recorded by a court reporter/and or videographer and become testimony.

Deposition testimony is generally taken under oath so the court reporter and deponent sign affidavits that state the testimony is accurate. The testimony is then transcribed into a written transcript and used as a discovery tool by attorneys to prepare for trial.

To act "pro se" in a legal claim means that you are representing yourself without the help of an attorney. For those people who do file cases on their own behalf, it is important to understand that the Court still expects the pro se filer to follow all the rules and procedures that an attorney would follow.

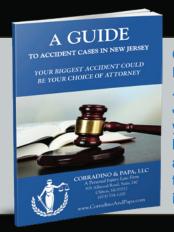

If you or someone you know is thinking of acting *pro se* in a legal issue, it is worthwhile to talk with an attorney at our firm. You may be able to get some guidance or discover that you really do need the help of an attorney. One thing you certainly don't want to have happen is getting in over your head with a legal situation without an attorney being able to help you.

garden egg salad

A good, quick recipe for a meatless dish. It's great for a warm summer day, too!

Ingredients

- 6 large eggs
- ½ c. low-fat mayonnaise
- 2 Tbsp. whole-grain mustard
- Kosher salt and freshly ground black pepper
- 2 scallions (white and green), thinly sliced
- 1 rib celery, minced (about ½ c.)
- 2 radishes, grated with large holes of a grater
- 8 romaine lettuce leaves
- 1 c. pea or other sprouts

Preparation

- Place eggs in a saucepan with enough cold water to cover. Bring to a boil, cover, and remove from heat. Set aside for 12 minutes.
- Drain the eggs and roll them between the palm and counter to crack the shell, then peel under cool running water (it's the best way).
- Dice the eggs, then combine them with mayonnaise and mustard. Season with salt and pepper. Stir in scallions, celery, and radish.
- Divide the egg salad evenly among the lettuce leaves. Top with sprouts and roll up. About 2 rolls will be a typical serving.
